

Community Participation: Information Seeking and Knowledge Sharing

Community participation is a critical element of sustainable development. It ensures that the voices of all stakeholders are heard and that their needs are taken into account in decision-making processes. Information seeking and knowledge sharing are essential components of community participation, as they allow community members to access the information they need to make informed decisions and to share their knowledge and experiences with others.

Research on online spiritual and religious communication under the COVID-19: Community participation, information seeking, and knowledge sharing by Matto Mildenerger

This book explores the role of information seeking and knowledge sharing in community participation. It examines the factors that influence these activities, the challenges faced, and the strategies that can be employed to promote them. With contributions from leading scholars in the field, this

book is an essential resource for anyone interested in community participation, information science, or knowledge management.

Chapter 1: The Role of Information Seeking and Knowledge Sharing in Community Participation

This chapter provides an overview of the role of information seeking and knowledge sharing in community participation. It discusses the different types of information that community members need to access, the sources of information that are available, and the challenges that community members face in accessing and using information. It also examines the different ways that community members share knowledge and the benefits of knowledge sharing.

Chapter 2: Factors Influencing Information Seeking and Knowledge Sharing in Community Participation

This chapter explores the factors that influence information seeking and knowledge sharing in community participation. It examines the individual, social, and contextual factors that can affect these activities. It also discusses the role of technology in facilitating information seeking and knowledge sharing.

Chapter 3: Challenges to Information Seeking and Knowledge Sharing in Community Participation

This chapter identifies and discusses the challenges to information seeking and knowledge sharing in community participation. It examines the barriers that community members face in accessing and using information, as well as the challenges that community organizations face in promoting information seeking and knowledge sharing.

Chapter 4: Strategies for Promoting Information Seeking and Knowledge Sharing in Community Participation

This chapter provides strategies for promoting information seeking and knowledge sharing in community participation. It discusses the role of community organizations, libraries, and other institutions in supporting these activities. It also examines the use of technology to facilitate information seeking and knowledge sharing.

This book provides a comprehensive overview of the role of information seeking and knowledge sharing in community participation. It examines the factors that influence these activities, the challenges faced, and the strategies that can be employed to promote them. With contributions from leading scholars in the field, this book is an essential resource for anyone interested in community participation, information science, or knowledge management.
