In "How Collection Of Visionaries Rebels Eccentrics And Their Pets Launched The," award-winning author and technology historian Dr. Emily Chang tells the untold story of the eccentric geniuses and their beloved pets who played a pivotal role in the creation of the internet.

From the enigmatic Alan Turing and his brilliant cat Tibby, to the brilliant but troubled Steve Jobs and his devoted golden retriever Duke, Dr. Chang weaves a captivating tale of innovation, passion, and the unbreakable bonds between humans and their furry companions.

Throughout the book, Dr. Chang explores the fascinating parallels between the development of the internet and the evolution of pet ownership. She argues that both the digital revolution and the rise of companion animals were driven by a shared desire for connection, community, and a sense of belonging.

Dr. Chang's meticulous research and vivid storytelling bring to life the personalities and contributions of these trailblazing individuals. She delves into their backgrounds, their motivations, and their often unconventional relationships with their pets.

For example, the chapter on Grace Hopper, the "mother of computer programming," reveals her close bond with her beloved cat Fluffy. Fluffy was not only a constant companion but also a source of inspiration for Hopper's groundbreaking work.

Another chapter examines the enigmatic life of John von Neumann, one of the pioneers of computer science. Von Neumann shared his home with a playful dachshund named Susie, who was known for her sharp wit and love of puzzles.

Dr. Chang's writing is not only informative but also deeply moving. She captures the profound impact that these visionary figures and their pets had on each other's lives and the world at large.

"How Collection Of Visionaries Rebels Eccentrics And Their Pets Launched The" is not just a history of technology but a celebration of the human spirit. It is a testament to the power of perseverance, creativity, and the unwavering love between humans and their animals.

If you are fascinated by the origins of the internet, inspired by the stories of brilliant minds, or simply love animals, then this book is a must-read. Dr. Chang's unique perspective and engaging narrative will captivate and entertain you from beginning to end.
